

# Training & Education

- Developing formal course structure and content in line with service specific guidelines and widely accepted adult learning theories via multiple methods:
  - Synchronous / Asynchronous
  - Immersive Environments
  - Multimedia Aides
  - Lecture & Practical Application
  - Simulations
  - Distance Education
- Implementing tailored exercise integration processes and scenarios for unit specific rehearsal and assessment of target material
- Fielding and end-user training of emerging technologies and processes to include Department of Defense advances in Machine Learning and Artificial Intelligence.
